

Dr. Lily Ooi

BMedSc, MBBS (Hons), FRANZCO

Dr Lily Ooi graduated in medicine with honours in 1997 from University of Tasmania. She moved to Queensland after graduation to commence her specialist training as an ophthalmologist.

After completing her ophthalmology specialist training, she further advanced her fellowship training in the management of anterior segment diseases and strabismus at Princess Alexandra Hospital and the Royal Brisbane Hospital.

Following her fellowship training, she spent 1 year with paediatric surgeon Dr Denis Stark learning the care of paediatric strabismus, and completed the essential paediatric ophthalmologist course at University College, London.

Dr Lily Ooi's clinical interests include:

- Complex cataract surgery (adult and paediatric)
- Medical retina treatments (macular degeneration and diabetes)
- Strabismus surgery (adult and paediatric)
- Therapeutic eyelid surgeries (ie. blepharoplasty, entropion, ectropion corrections)

Dr Ooi is multi-lingual; she is proficient in Cantonese, Mandarin, Hokkien and Malay.
